SUMMARY

Backend-focused MCA student with hands-on experience in Node.js and PostgreSQL. Built real-world web applications including live platforms and REST APIs. Strong foundation in backend development, databases, and problem-solving.

EXPERIENCE

Humming Byte Technologies Pvt. Ltd **July 2025 - Dec 2025 , Nashik, Maharashtra**

- Worked on backend development using Node.js and PostgreSQL for a digital menu card system project.
- Developed and managed database schemas, queries, and data flow for menu and order management.
- Implemented server-side logic and assisted in building RESTful APIs.
- Collaborated with mentor and team to understand real-world software development practices and workflows.

PROJECT

UrbanPune.in - Local Business & City Discovery Platform

www.urbanpune.in/

- Developed and launched UrbanPune.in, a live city-based digital discovery platform for Pune featuring local businesses, services, blogs, events, and room/hostel/PG listings.
- Extended the platform to mobile by building an Android WebView (Web-to-App) application and successfully publishing it on the Google Play Store.

ServHunt - QR-Based Digital Menu & Ordering System

- Worked on backend development using Node.js and PostgreSQL for a digital menu card system.
- Designed and managed database schemas, queries, and data flow.
- Implemented server-side logic and RESTful APIs.
